you

The rapid acceptance of flat panel televisions has quickly revealed a major drawback. With its sleek, slim frame, there is simply no room for quality loudspeakers. A large step forward in image quality has accompanied an equally large step backward in sound quality; - at the same time high resolution audio from TV and Blu-ray discs have become widely available.

To resolve this paradox, Jamo proudly introduces the A 200 series loudspeaker, designed to be an attractive partner for any flatscreen display, with sound quality to match even the finest picture quality. A newly developed 3" (75mm) driver ensures clarity and power across the all important midrange, while a 1" (25mm) dome tweeter offers a sweet rendition of the fine details that bring modern movies and music to life.

Whether mounted on a wall or a stand, the stylishly rounded edges and extremely shallow depth of the A 200 add an attractive element to any contemporary décor, combining pleasing visuals and sound quality rare in speakers their size.

Finished in high gloss black or white, A 200 can be partnered with an optional SUB 210 or SUB 800 subwoofer to deliver a level of performance previously unheard of at this modest price point.

Specifications	SUB 210	Specifications	A 200
System	Bass Reflex	System	2-Way Closed
Woofer (mm / in)	203 / 8	Woofer (mm / in)	76 / 3
Impedance (kOhm)	22	Tweeter (mm / in)	25 / 1
Frequency Range (Hz)	38 - 200	Power (W, long / short term)	80 / 100
Cut off Frequency (Hz)	40 - 200	Sensitivity (dB/2,8V/1m)	86
Phase (deg.)	0 to -180	Frequency Range (Hz)	150 - 20.000
Line in	Left / Right	Impedance (Ohm)	6
Amplifier Rated output (W)	200	Weight (Kg / lb)	0,50 / 1.10
Stand-by power (W)	< 0,5	Dimension HxWxD (mm / in)	218 x 90 x 52 / 8.6 x 3.5 x 2
Weight (kg / Lb)	7,5 / 16.5	Finishes	HG Black , HG White
Dimensions HxWxD (mm / in)	313 x 283 x 305 / 12.3 x 11.1 x 12		
Finishes	Black, Wenge, Dark Apple, White Ash, HG Black and HG White
