This Class B digital apparatus complies with Canadian ICES-003. Cet appareil numérique de la class B est conforme à la norme NMB-003

FCC information This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful

However, there is no guarantee that interference will not occur in a particular installation. If this equipme does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the

interference to radio communications

following measures:

Reorient or relocate the receiving antenna.

 Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is

· Consult the dealer or an experienced radio/TV technician for Modifications not expressly approved

by the party responsible for compliance could void the user's authority to operate the equipment.

plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third prong. The . wide blade or the third prong is provided for your safety. If the provided

of the polarized or grounding-type

plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.

Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the

Only use attachments/accessories

specified by the manufacturer.

Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/ apparatus combination to avoid injury from tip-over.

Unplug this apparatus during lightning storms or when unused for long periods of time. Refer all servicing to qualified

service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled

or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been

ADDITIONAL SAFETY In order to disconnect the apparatus

from the mains completely, the mains plug should be disconnected from the mains socket outlet completely. To be completely disconnect the

power input, the AC/DC adaptor of apparatus shall be disconnected from the mains. The AC/DC adaptor should not be obstructed OR should be easily

accessed during intended use The AC/DC adapter supplied with this product is intended to be correctly oriented in a vertical or floor mount position.

Do not use unauthorized chargers or power adapters. Use only chargers that came with your product or that is listed in the user's quide.

 Apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus.

Always leave sufficient space around the product for ventilation. Do not place product in or on a bed, rug, in a bookcase or cabinet that may prevent air flow through vent

Important battery precautions

impeded by covering the ventilation openings with items such as Any battery may present a risk of fire, explosion, or chemical burn newspaper, table-cloths, curtains etc. if abused. Do not try to charge a battery that is not intended to be

recharged, do not incinerate, and do not puncture. Non-rechargeable batteries, such as alkaline batteries, may leak if left in your product for a long period of time. Remove the batteries from the

product if you are not going to use it for a month or more. Battery shall not be exposed to

excessive heat such as sunshine, fire or the like. If your product uses more than one battery, do not mix types and make

sure they are inserted correctly.
Mixing types or inserting incorrectly may cause them to leak

Discard any leaky or deformed battery immediately. They may cause skin burns or other personal Please help to protect the

environment by recycling or disposing of batteries according to federal, state, and local regulations. Attention should be drawn to the environmental aspects of battery

designed receptacles.
