

Let us  
entertain  
you

A powerful subwoofer makes any sound-system more dynamic and entertaining to listen to.

And that is what the Jamo SUB 260 is designed to do. Equipped with a long-throw 8-inch woofer housed in a slotted-port-cabinet, it provides the foundation for outstanding performance. With an amplifier capable of 260W of peak power this subwoofer can deliver higher sound-pressure levels at lower distortion, resulting in maximum musical fidelity and reproduction of details.

The strong 8-inch driver uses a very rigid cone made of composite materials, allowing very high excursion with low distortion. The large motor structure features a well ventilated pole-piece, which help cool the voice-coil, increasing power handling and reducing distortion by eliminating unwanted mechanical damping and air-pressure from the system.

The amplifier technology combines the classic sound of high quality analog amplification with the efficiency and power delivery of modern digital technology. The end-result is a subwoofer that provides a welcome addition to any sound-system, be it classic stereo or a full blown surround-sound set-up.

<b>Specifications</b>	<b>SUB 260</b>
System	Slotted port
Woofer (mm / in)	203 / 8
Impedance (Ohm)	22 k
Frequency Range (Hz)	30 - 200
Cut off Frequency (Hz)	40 - 200
Phase (deg.)	0 to -180
Switch	Auto-On / Off
Line in	Left / Right
Amplifier Rated output (W)	260
Stand-by power (W)	< 0.5
Weight (kg / Lb)	13 / 28.7
Dimensions HxWxD (mm / in)	325 x 267 x 469 / 12.8 x 10.5 x 18.5
Finishes	Black Ash, Dark Apple, Wenge Not all Finishes are sold in all countries.
