

# V-5.2-C

### Center Channel speaker with attractive high-end finish

High gloss piano black or rosenut cabinet

### Convergent Source Module

Tweeter and woofer in proximity act as single source to increase dispersion

### 1-inch aluminum dome tweeter

Produces clear, accurate highs for a detailed listening experience

### Dual 5.25-inch woofers with Ribbed Elliptical Surround

Deliver tight and powerful distortion-free low-frequency response

### All Energy brand components were developed with these sound principles in mind:

- Flat On-Axis Frequency Response with Wide Bandwidth**  
 Speakers should reproduce the entire audio range in a uniform manner. By ensuring that no one frequency dominates any other, Energy ensures that every note is the way it was intended to be – and the sound is as natural as possible.
- Wide and Constant Dispersion**  
 Sound at all frequencies radiating from the speakers should be in an even pattern, in all directions throughout the room.
- Low Distortion and Resonance**  
 No speaker system is totally distortion- or resonance-free, but Energy has achieved a significantly lower distortion level – a clearly audible improvement.
