

AUDIOVOX®

News Release

The Ultimate Road Show!

Rear Seat Entertainment with More Content than Ever Before

HAUPPAUGE, NY – SEPTEMBER 9, 2014 -- [VOXX Electronics Corp \(VEC\)](#), a wholly-owned subsidiary of [VOXX International Corp.](#) (NASDAQ: VOXX), today announced it has begun shipping the Audiovox Movies2Go 13.3" Overhead Mobile Video unit with HDMI/MHL connectivity. This system not only dramatically expands the content available to rear seat entertainment passengers; it does so on one of the largest in vehicle monitors available in the market today.

“With our latest RSE system with certified HDMI/MHL connectivity inputs, the options to share streaming or downloaded movies and other media to the back seat are now literally endless,” said Tom Malone, President of VOXX Electronics. “If it can be viewed on a smart phone or tablet, it can be shared via this new HDMI/MHL connection to viewers in the back seat...it’s just that easy! And the HDMI/MHL compatibility does not compromise the use of the DVD player in the overhead unit, so now parents can still use their video library as well as offer their children an unlimited range of options to keep them entertained.”

The overhead system features a digital 13.3" LED Backlit Monitor with Built-in DVD player and HDMI/MHL inputs. It features a built-in 16 channel FM modulator with FM transmitter function and dual channel IR transmitter. Switchable 16:9 / 4:3 aspect ratio, audio/video inputs for additional source units, USB/SD inputs for digital media (4GB max on SD card), audio/video outputs, remote control with front and rear control, wired headphone jack and selected M1/M2 operation. The AVXMTG13UHD comes with all 3 colored snap on bezels and trim rings in interchangeable pewter, shale and black.

Currently shipping, the AVXMTG13UHD carries a MSRP of \$449.99.
