

News Release

New Advent Plug & Play Navigation Systems Add Nav to Existing Head Units and Keep All Factory Features

Consumers can upgrade to new maps via USB cable

HAUPPAUGE, NY – NOVEMBER 20, 2014 -- [VOXX Electronics Corp \(VEC\)](#), today announced the introduction of its Next Generation Navigation Systems to the Advent line of exclusive car dealer products. With these three systems, dealers can add navigation capabilities to existing head units in select 2013-2015 Cadillac, GMC, Chrysler, Dodge, Buick and Chevrolet vehicles, which allows consumers to retain all factory features with no modifications to the factory radio.

The Advent Next Generation Nav Black Box system features iGo Primo 8 with USA and Canada mapping with its 'latest map guarantee' insuring that the consumer starts out with the latest maps available giving them the ability to upgrade to new maps via USB cable, similar to what you would receive in a factory system. iGo (NNG) Certified Navigation Hardware insures the best user experience, 3D Mapping and over 11 million POI, turn-by-turn voice guided directions, and ECO Green Navigation which helps save fuel. Additionally, the system also includes input for a reverse camera and 2 AV inputs allowing vehicles to be upgraded even further if desired. All systems will also integrate with OE camera if installed.

"We pride ourselves on keeping our car dealer partners ahead of the technology curve," said Tom Malone, President of VOXX Electronics. "These new interfaces have been designed to integrate with a vehicle's existing infotainment screen and they offer the consumer the ability to add a high resolution system that is updateable and upgradable via a remote USB connection...something normally found only on factory systems. These systems feature plug & play technology, which simplifies the installation process of what were once complex systems."

The Advent Next Generation Navigation System is available now through our Expeditor/Car Dealer network for delivery in new vehicles and select installing dealers.
