

808 Line of Studio-Quality Headphones Available for Purchase Online

Product available online with free shipping

HAUPPAUGE, NY – February XX, 2013 - VOXX Accessories Corp., a wholly-owned subsidiary of VOXX International Corp. (NASDAQ: VOXX), announced today the launch of its [808 line of studio-quality](#), high-performance headphones. 808 headphones break down the walls separating regular consumers from high-performance personal audio by delivering studio-quality materials and engineering without the outrageous price. The 808 full-size over-ear models feature powerful 40mm drivers with outstanding response and accuracy in a foldable design with soft, comfortable earcups. 808 full-size headphones also come with multiple detachable cords and a protective travel case, with an \$89.99 MSRP plus free shipping online at [808headphones.com](#), where consumers have the opportunity to purchase the headphones before they are available at retail.

“It's pretty simple. 808 is all about street smarts, cutting-edge audio technology, and intelligently priced products for the discerning enthusiast,” said David Geise, President of Voxx Accessories Corporation. “Our goal is to make gear that works as good as it looks. We set out to make stuff that we'd want to use ourselves. No hype. No silly celebrity endorsements. If it says "808" on it, you can trust that it will not only enhance your listening experience – it will let you hear your music like never before.”

The 808 over-ear headphones are available in three (3) colors: black matte ([HPA88BKM](#)), black high gloss ([HPA88BKG](#)), and white high gloss ([HPA88WHG](#)). Each 808 full-size headphone features 40mm drivers and a foldable design, with two (2) detachable cables (round without mic and flat with mic) as well as a high-quality soft travel case included. These full-size models are available now online for \$89.99 plus free shipping. The On-Ear 808 Drifts and In-Ear 808 headphones will be available in the second quarter of 2013.

Geise continues, “we wanted the 808s to be all about the music and the customer, and we felt offering the consumer the opportunity to purchase the headphones prior to retail availability helps drive that message. We are also leaving a lot of the product messaging to our fans and specially selected “Agents.” We’ll let them hype our product on the 808 Headphones Facebook page, where we’ll host contests, giveaways, and promotions.”
