

## News Release

### OMEGA Has Updated Their 60 Watt, 4 Bulb Strobe Kit

**DOUGLASVILLE, GEORGIA – JULY 23, 2014** – Omega Research and Development Technologies, Inc. is now shipping the updated STR-604D+. This update increases the user function while keeping the reliability of the STR-604D. Now, a single wire can be used for flash pattern control, offering the user 15 options with the push of a button. You no longer have to limit the customer to one or two patterns or configure a complicated arrangement of switches for the customer to remember.

The STR-604D+ is a great addition to any vehicle that needs to be seen. From a show vehicle looking for the crowd's attention to any vehicle fleet that needs to be seen for safety.

The kit includes the control module, 4 clear drill in bulbs, a 1" hole saw for bulb installation, pre terminated shielded cable, an On/Off switch, and a pattern select bush-button.

#### **About Omega:**

Omega Research & Development Technologies has been an innovative leader in the vehicle security industry for over 40 years. Since its founding in 1971, Omega's product line has diversified to include remote start modules and other vehicle accessory products. Omega's most recent product offerings include the exciting new technologies of telematics, wireless and databus integration.

With the vision of the founder, Kenneth Flick, guiding the company, auto security systems remain the central focus of Omega Research & Development Technologies. In 1995, Omega became the only company in the keyless entry arena with a technology designed to prevent crime due to unauthorized transmitter access to vehicle systems. The patented technology, **Unauthorized Transmitter Alert**, promises to revolutionize the industry. Consumers can now have instant knowledge of any unauthorized access to their keyless entry systems. Most of the product lines manufactured by Omega are equipped with Unauthorized Transmitter Alert technology.

Omega's mission, as it was over four decades ago, is to provide reliable, leading-edge security and automotive accessory products at a competitive price.
